CAREER SUMMARY:

I am a final-year Computer Science and Engineering student specializing in Artificial Intelligence. With a solid foundation in machine learning and data science, I have actively contributed to hands-on projects, refining my programming skills and collaborating effectively. Eager to apply my knowledge to real-world challenges, I am positioned for a dynamic career in the evolving field of artificial intelligence.

EDUCATION:

BTech - Computer Science and Engineering with (Artificial Intelligence and Machine learning)

University of Mumbai

Place - Kopar Khairane (Navi Mumbai)

2022 - pursuing (Expected- 2025)

Average GPA -8

Diploma - Computer Engineering

Mumbai University

Place - Dombivli

2019 - 2022

Percentage 85.54

PROJECTS

Pre-Post World News API   (GitHub)

A web application which provides news all around the world with wide range of categories. Successfully created API service of the news based on categories. From this project I have learned and enhanced skills to use Flask , Beautiful Soup, Jinja, Tailwind CSS, JavaScript

DocBerg   (GitHub)

Created a web application which provides services related to documents such as - Resume Analyzer with suggestions, Document conversion, Image text extraction. From this project I have learned and enhanced skills to use Tensorflow, NLP, OCR, Flask, Tailwind CSS, Javascript

Revving UP   (GitHub)

Created a web application clone of Cardekho, which provides services such as - Multiple car selections, BHP and Torque comparison Graphs, Ratings-Reviews, Features comparison , 3D model, etc. From this project I have learned and enhanced skills in Features Extraction , Data cleaning, Plotly, Ajax-JavaScript, Tailwind CSS.

SocioFy   (GitHub)

A web application for creators to watch their Instagram page, derive post's comments sentiment analysis and statistics. In this project I have worked on API's (Facebook Graph API), Django framework, Social Authentication, Sentiment Analysis, Tensorflow, Plotly for dynamic plots

AInterview   [(GitHub)](GitHub)

A web application for students and users who wants to improve their Interview skills along with there communication skills with the help of multiple interviewers. In this project I have worked on Gemini AI, Flask API framework, Next JS, React JS, ChartJS for dynamic plots, API endpoints

PARTICIPATON

- **SIH**- Smart India Hackathon
- **HackOverflow 2.O** - National level hackathon (Pillai)
- **Logithon** - Softlink Global Pvt. Ltd.
- **ML Quest Hackathon** - G. H. Raisoni College of Engineering (GHRCE), Nagpur
  - Achieved 3rd Rank
- **HackCelestial -** National Level Hackathon (Pillai Tech Alegria)

EXPERIENCE

1. **YBI Foundation (Internship)**

   Intelligence and Machine learning Internship
   Remote
   Project - Home Value Prediction
   Developed a Machine learning model to predict house value
   - Python (Tensorflow, Pandas, Numpy)
   - Scikit-learn (for data preprocessing ,model building,and evaluation)

SKILLS

Hard Skills -

- Python - (Django, Flask, Matplotlib, Seaborn, Plotly, TensorFlow, Pandas, Numpy, BeautifulSoup)
- JavaScript - (Ajax, JQuery, Vanilla Javascript, React, React Native)
- CSS - (Tailwind, BootStrap)
- SQL - (MySQL, SqLite)

Soft Skills -

- Integrity
- Teamwork
- Creativity
- Problem solving
- Critical thinking
